

Here is a new discussion forum!

Please find below suggestions for discussion topics and optional projects:

SUGGESTED TOPICS

- Which enhanced player did you try? Share opinions, experiences, post a review!
- Did you take into account accessibility when choosing such a video or audio player? Do you use the synchronized transcript of the videos proposed in this course? Did you notice that this player is accessible for people with disabilities? That it can be used with a keyboard, etc.

OPTIONAL PROJECTS

Here are a few project ideas to try out. Your classmates and the team who prepared the course will all be glad to try them and give some feedback. Post URLs in this discussion forum. As always, these projects are optional, and as such, they won't be graded.

Project 1 (very easy): prepare a Web page somewhere that uses some of the enhanced players, and write some explanations on how you created the page (JavaScript files to include, options to choose from, etc.)

Project 2 (more work): make a video of yourself that explains how you made the video, added subtitles, chose the player, hosted the files, etc.
