OPTIONAL PROJECTS

Here are a few project ideas. Your classmates and the team who prepared the course will all be glad to try them and give some feedback. Please post URLs in this discussion forum. These projects are optional, meaning that they won't be graded.

Project 1 (very easy): Add some subtitles of your own on one of your videos. Share your step by step experience. This will be a valuable resource for your classmates.

Project 2 (easy): Try to style some of the subtitles, set their position, etc.

Project 3 (with JavaScript knowledge): Try to write a karaoke player with a small list of songs we can choose from.
